Reading

G Read the text and choose the correct answer (A, B or C).

Young people today, especially teenagers, are spending more and more of their time meeting new friends online and chatting with them for hours. But is this always a good thing?

Talking to someone you have never met online, with or without a webcam, can be exciting. You can spend hours and hours talking to people who may be on the other side of the world. They can tell you a lot of things about cultures and countries that are new to you. The best thing is that you don't even have to leave your bedroom! You can learn a lot about foreign places just by using your computer!

On the other hand, chatting online with people you don't really know is not always safe. Anyone can enter a chat room, so you can't really know if the person at the other end is being honest with you. Also, some people spend too much time chatting online and they don't go outside and hang out with their friends.

Hi Daisy,

How are you? I hope you're OK. I've just come back from a Britney Spears concert and it was great!

Britney Spears is my favourite singer. She's from Louisiana, USA, and she's a fantastic performer and a brilliant dancer. I also think that Britney Spears is a good actress. She starred in the film *Crossroads* in 2002 and she was great in it.

She sings pop songs and her music is very good. I really like Britney's music because it always makes me want to dance and it also makes me feel very happy! I have all eight of her albums and I love every one of them! My favourite Britney Spears album is *The Greatest Hits: My Prerogative*. I like it because it has all her best songs on it. Have you heard it?

Anyway, I have to go now. Write back soon.

Love,
Lisa
